Casey Morgan
Data Scientist
casey.morgan@example.com | (555) 010-3399 | Brookfield (fictional)

SUMMARY
Data scientist working on forecasting, experimentation and NLP.

SKILLS
Python, R, SQL, pandas, scikit-learn, PyTorch, TensorFlow, XGBoost, Spark, Tableau, statistics, A/B testing

EXPERIENCE
Senior Data Scientist, Northstar Health (fictional) (2021 - Present) [project set 1]
- Built demand-forecasting models that cut stock-outs 18%.
- Ran 30+ A/B tests with a shared experimentation library.
Data Analyst, Riverbank Insurance (fictional) (2017 - 2021) [project set 1]
- Automated claims reporting in SQL and Tableau.
Senior Data Scientist, Northstar Health (fictional) (2021 - Present) [project set 2]
- Built demand-forecasting models that cut stock-outs 18%.
- Ran 30+ A/B tests with a shared experimentation library.
Data Analyst, Riverbank Insurance (fictional) (2017 - 2021) [project set 2]
- Automated claims reporting in SQL and Tableau.
Senior Data Scientist, Northstar Health (fictional) (2021 - Present) [project set 3]
- Built demand-forecasting models that cut stock-outs 18%.
- Ran 30+ A/B tests with a shared experimentation library.
Data Analyst, Riverbank Insurance (fictional) (2017 - 2021) [project set 3]
- Automated claims reporting in SQL and Tableau.
Senior Data Scientist, Northstar Health (fictional) (2021 - Present) [project set 4]
- Built demand-forecasting models that cut stock-outs 18%.
- Ran 30+ A/B tests with a shared experimentation library.
Data Analyst, Riverbank Insurance (fictional) (2017 - 2021) [project set 4]
- Automated claims reporting in SQL and Tableau.
Senior Data Scientist, Northstar Health (fictional) (2021 - Present) [project set 5]
- Built demand-forecasting models that cut stock-outs 18%.
- Ran 30+ A/B tests with a shared experimentation library.
Data Analyst, Riverbank Insurance (fictional) (2017 - 2021) [project set 5]
- Automated claims reporting in SQL and Tableau.
Senior Data Scientist, Northstar Health (fictional) (2021 - Present) [project set 6]
- Built demand-forecasting models that cut stock-outs 18%.
- Ran 30+ A/B tests with a shared experimentation library.
Data Analyst, Riverbank Insurance (fictional) (2017 - 2021) [project set 6]
- Automated claims reporting in SQL and Tableau.
Senior Data Scientist, Northstar Health (fictional) (2021 - Present) [project set 7]
- Built demand-forecasting models that cut stock-outs 18%.
- Ran 30+ A/B tests with a shared experimentation library.
Data Analyst, Riverbank Insurance (fictional) (2017 - 2021) [project set 7]
- Automated claims reporting in SQL and Tableau.
Senior Data Scientist, Northstar Health (fictional) (2021 - Present) [project set 8]
- Built demand-forecasting models that cut stock-outs 18%.
- Ran 30+ A/B tests with a shared experimentation library.
Data Analyst, Riverbank Insurance (fictional) (2017 - 2021) [project set 8]
- Automated claims reporting in SQL and Tableau.
Senior Data Scientist, Northstar Health (fictional) (2021 - Present) [project set 9]
- Built demand-forecasting models that cut stock-outs 18%.
- Ran 30+ A/B tests with a shared experimentation library.
Data Analyst, Riverbank Insurance (fictional) (2017 - 2021) [project set 9]
- Automated claims reporting in SQL and Tableau.
Senior Data Scientist, Northstar Health (fictional) (2021 - Present) [project set 10]
- Built demand-forecasting models that cut stock-outs 18%.
- Ran 30+ A/B tests with a shared experimentation library.
Data Analyst, Riverbank Insurance (fictional) (2017 - 2021) [project set 10]

- Automated claims reporting in SQL and Tableau.
Senior Data Scientist, Northstar Health (fictional) (2021 - Present) [project set 11]
- Built demand-forecasting models that cut stock-outs 18%.
- Ran 30+ A/B tests with a shared experimentation library.
Data Analyst, Riverbank Insurance (fictional) (2017 - 2021) [project set 11]
- Automated claims reporting in SQL and Tableau.
Senior Data Scientist, Northstar Health (fictional) (2021 - Present) [project set 12]
- Built demand-forecasting models that cut stock-outs 18%.
- Ran 30+ A/B tests with a shared experimentation library.
Data Analyst, Riverbank Insurance (fictional) (2017 - 2021) [project set 12]
- Automated claims reporting in SQL and Tableau.

EDUCATION
M.Sc. Statistics, Example State University (fictional), 2017
